One Technology Solution: Yours

SPOT TOPIC: BACKUP SOLUTIONS GUIDE

Wondering which backup solution is best for your business? Here's a guide that will help you break down your options.

SPOT OFFSITE BACKUP

This is our simplest backup solution, a good fit for **remote or traveling users, and small servers**.

PCs and laptops are only \$10 per month each, for 100GB cloud storage (which is pooled across all PCs and laptops for an individual client). Servers are only \$59 per month each, for 250GB cloud storage.

Want to learn more? Check out our [SPOT Offsite Backup solutions](#).

SPOT PROTECT BACKUP & DISASTER RECOVERY

The ideal solution for **clients with 3 to 10 servers**.

It combines the rental of storage, compute power, backup software, and cloud storage to provide a complete backup & disaster recovery solution. Failed servers can be recovered in as little as 30 minutes.

CUSTOM BACKUP & DISASTER RECOVERY SOLUTIONS

For larger and more complex virtual server environments, Fulcrum Group can build a custom backup & disaster recovery solution to meet our clients' requirements.

Using backup software from vendors such as **Veeam** and **Storagecraft**, local backup targets such as NAS Storage, and cloud storage for true disaster recovery, we can make sure to meet your Recovery Time Objectives and Recovery Point Objectives for all of your critical systems.
