# OUR MISSION & VALUES

**MISSION** – ELEVATE BUSINESSES WITH DIGITAL TRANSFORMATION

## **Act Consistently**

Uphold the highest standards of ethics and quality even (and especially) when faced with a problem. We treat everyone with respect and compassion.

## **Be Open**

Develop trust by being honest in our words and actions. We always are clear and transparent in our feedback, advice, and recommendations.

## **Think Broadly**

Look for creative and innovative ways to solve problems. We stay nimble with our solutions to adapt to changing needs and ideas.

## **Take Ownership**

Act as true partners for our clients. We take pride in owning their challenges, implementing the right solutions, and celebrating their successes.

## **Care Always**

Treat our teammates and clients with empathy and generosity. We create strong relationships by empowering others to do their best.

## **Build Expertise**

Create a balance between deep, technical skills and effective communication. We need expertise in both to deliver impactful solutions.

## RECOGNITION

# DIGITAL TRANSFORMATION **SOLUTIONS**

## **BUSINESS TRANSFORMATION**

- Digitization
- Intelligent Systems & Automation – BI, AI / ML, RPA
- Scale & High Availability – Cloud

## **EMPLOYEE EXPERIENCE TRANSFORMATION**

- Digital Workplace – Communication & Engagement
- Workflow Automation
- Mobile

## **CUSTOMER EXPERIENCE TRANSFORMATION**

- Mobile – Anywhere Access
- CMS – Personalized, Localized, Contextualized
- Chatbot – Automation, 24/7 Service

**Strategy &  
Consulting**

**Experience Design**

**Application  
Development**

**QA & Testing/  
Maintenance**

**Managed IT**

## SMALL & MID SIZE BUSINESSES

---

**27.9M** SMB in USA

---

---

**5M** SMB with more than 10 employees

---

---

**30%** new businesses fail during the first two years.

---

---

**50%** the first five years

---

---

**66%** first 10

---

---

**70%** do not use Technology

---

## WHY SMB FAIL?

90% of businesses do not have Customer Acquisition or Retention or Repeat Biz Strategy – Passive Plan.

low productivity – People are used for typing, calling and “Thinking” is not utilized.

low profits – No transparency and no ownership from each member.

Poor cash flow management

Absence of performance goals and monitoring.

Low Collaboration between team members

## DIGITAL SOLUTIONS CAN HELP

Automation

Intelligent Solutions

Integration

Mobility & Cloud

# IT BUYING TRENDS: 2022 - 2025

More and more IT applications are becoming a commodity.

- Buying is becoming more complicated – Point based solutions, many players, disparate & disconnected systems, Micro Services, legacy solutions, Cloud services.

- Application integration challenges are growing.

- SMB Businesses are not staffed with enough IT expertise.

- Customers want to buy based on Experience

- ROI, Risk vs Reward, Failed Projects.

Cloud Hosted Solution

Ready Solutions / Apps

## INTELLIGENT SOLUTIONS

**23%**

**Increase in Revenue**

**26%**

**Increase in Productivity**

**30% - 50%**

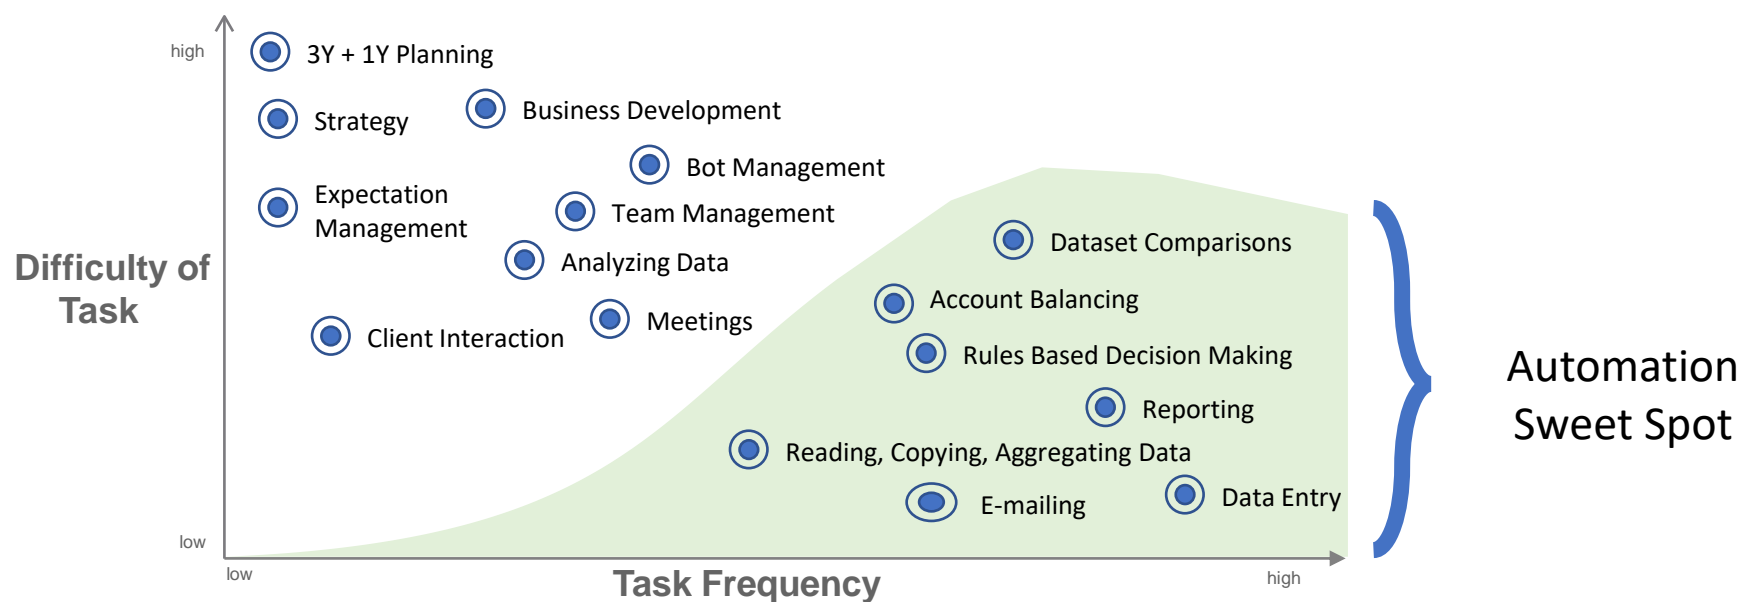

**Reduction in Downtime (Predictive Maintenance)**

**20% - 40%**

**Increase in Machine Life**

# EVOLUTION OF AUTOMATION

We face many tasks throughout our workday

# WHAT DOES RPA MEAN

What it is and what it is not

## RPA IS

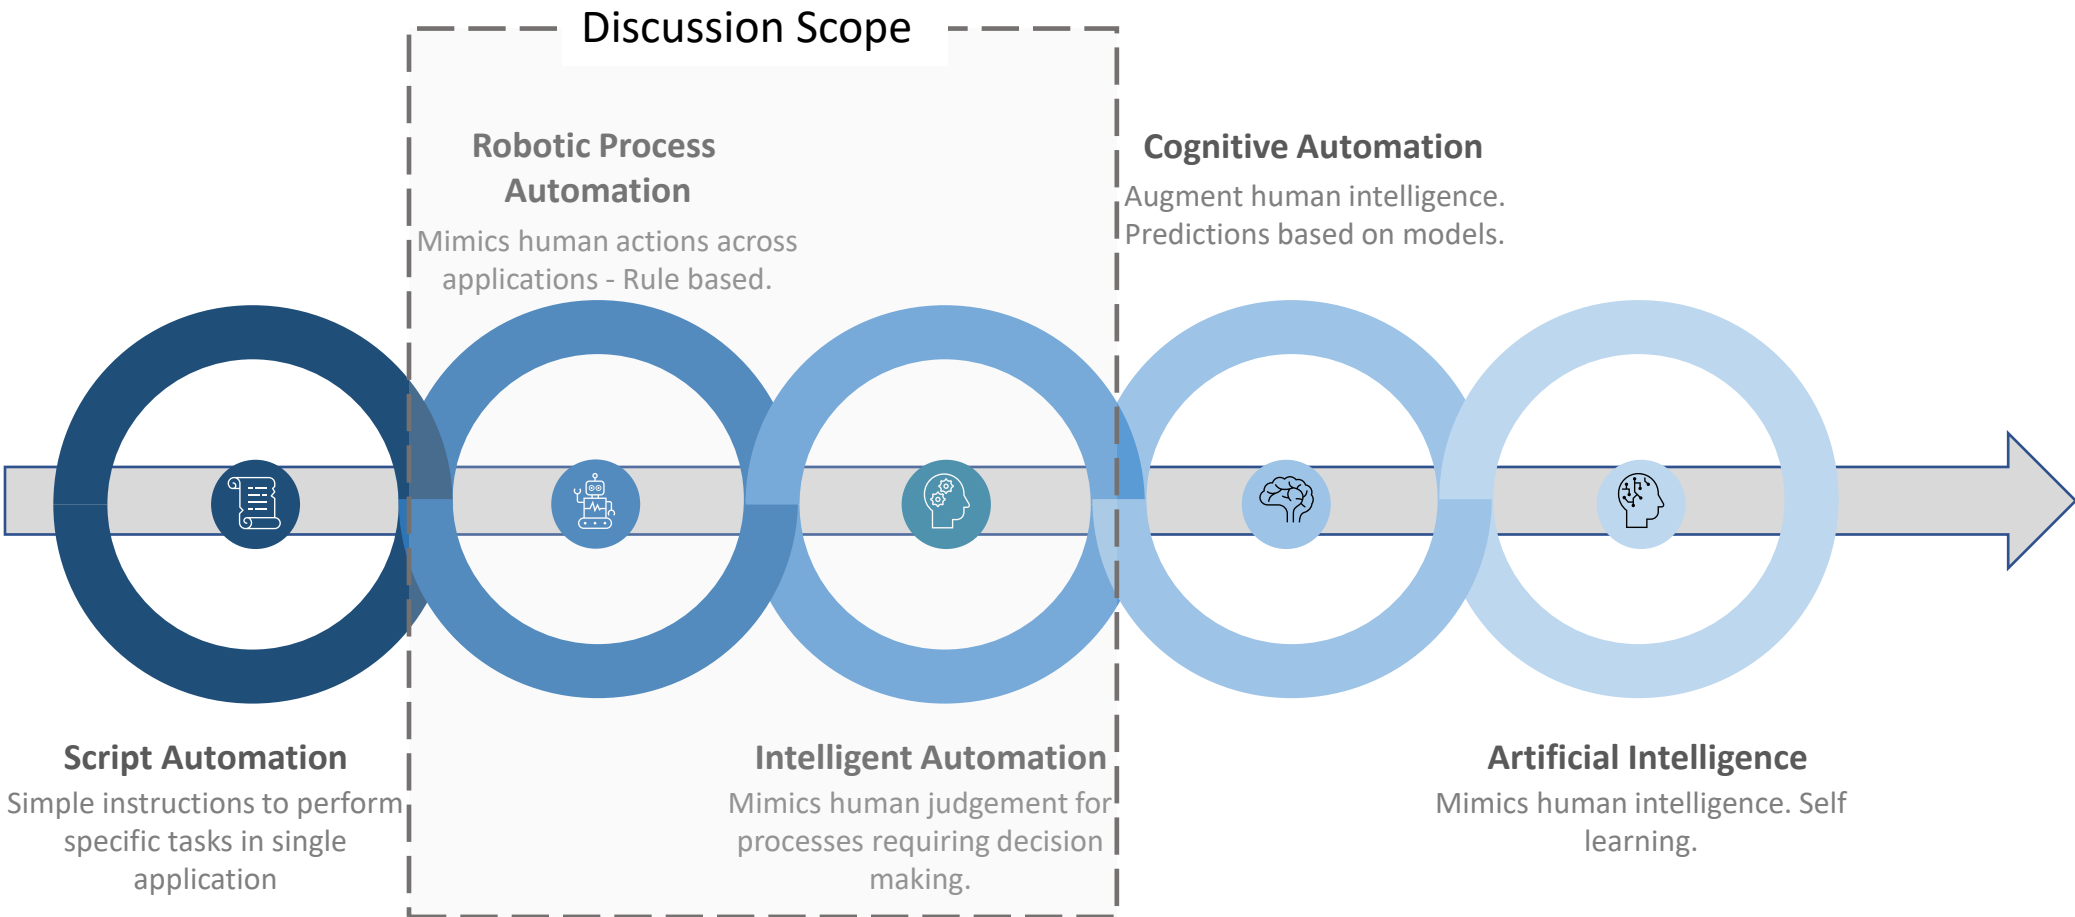

- ❖ Computer Software / Code
- ❖ Mimics human actions
- ❖ Works with and across applications
- ❖ Evolution or macros using additional technologies like OCR/AI/ML
- ❖ Enables automation of processes

## RPA IS NOT

- ❖ Factory or manufacturing automation
- ❖ Physically functioning or moving hardware robots
- ❖ Chat bots / Voice bots

## ROBOTIC PROCESS AUTOMATION - EVOLUTION

## RPA DEFINED

10 things RPA bot can do

**01** Open Email & Attachments

**02** Login to Applications

**03** Fill Forms

**04** Extract data from documents

**05** Move files and folders

**06** Write to databases

**07** Make decisions based on rules

**08** Perform calculations / validations

**09** Collect/Collate data from sources

**10** Notify through emails

## Robotic Process Automation (RPA) – Business Drivers

## Robotic Process Automation (RPA) – Benefits

### Employee Morale

Free up time from manual/repetitive boring tasks to engage them on value-add tasks

### Productivity

Complete and turn around process tasks quicker.

### Reliability

Bots work 24x7. No fatigue / additional training needs

### Accuracy

Reduced errors for data entry with clear rule based execution

### Non-Invasive

No disruption to existing applications. Reduced IT burden and dependency

### Compliance

Better compliance with clear logs and rule-based compliant task execution

### Consistency

Tasks performed in the same way – every run, every bot

### Low Barriers

Options for citizen driven bot development

## Robotic Process Automation (RPA) – Fitment

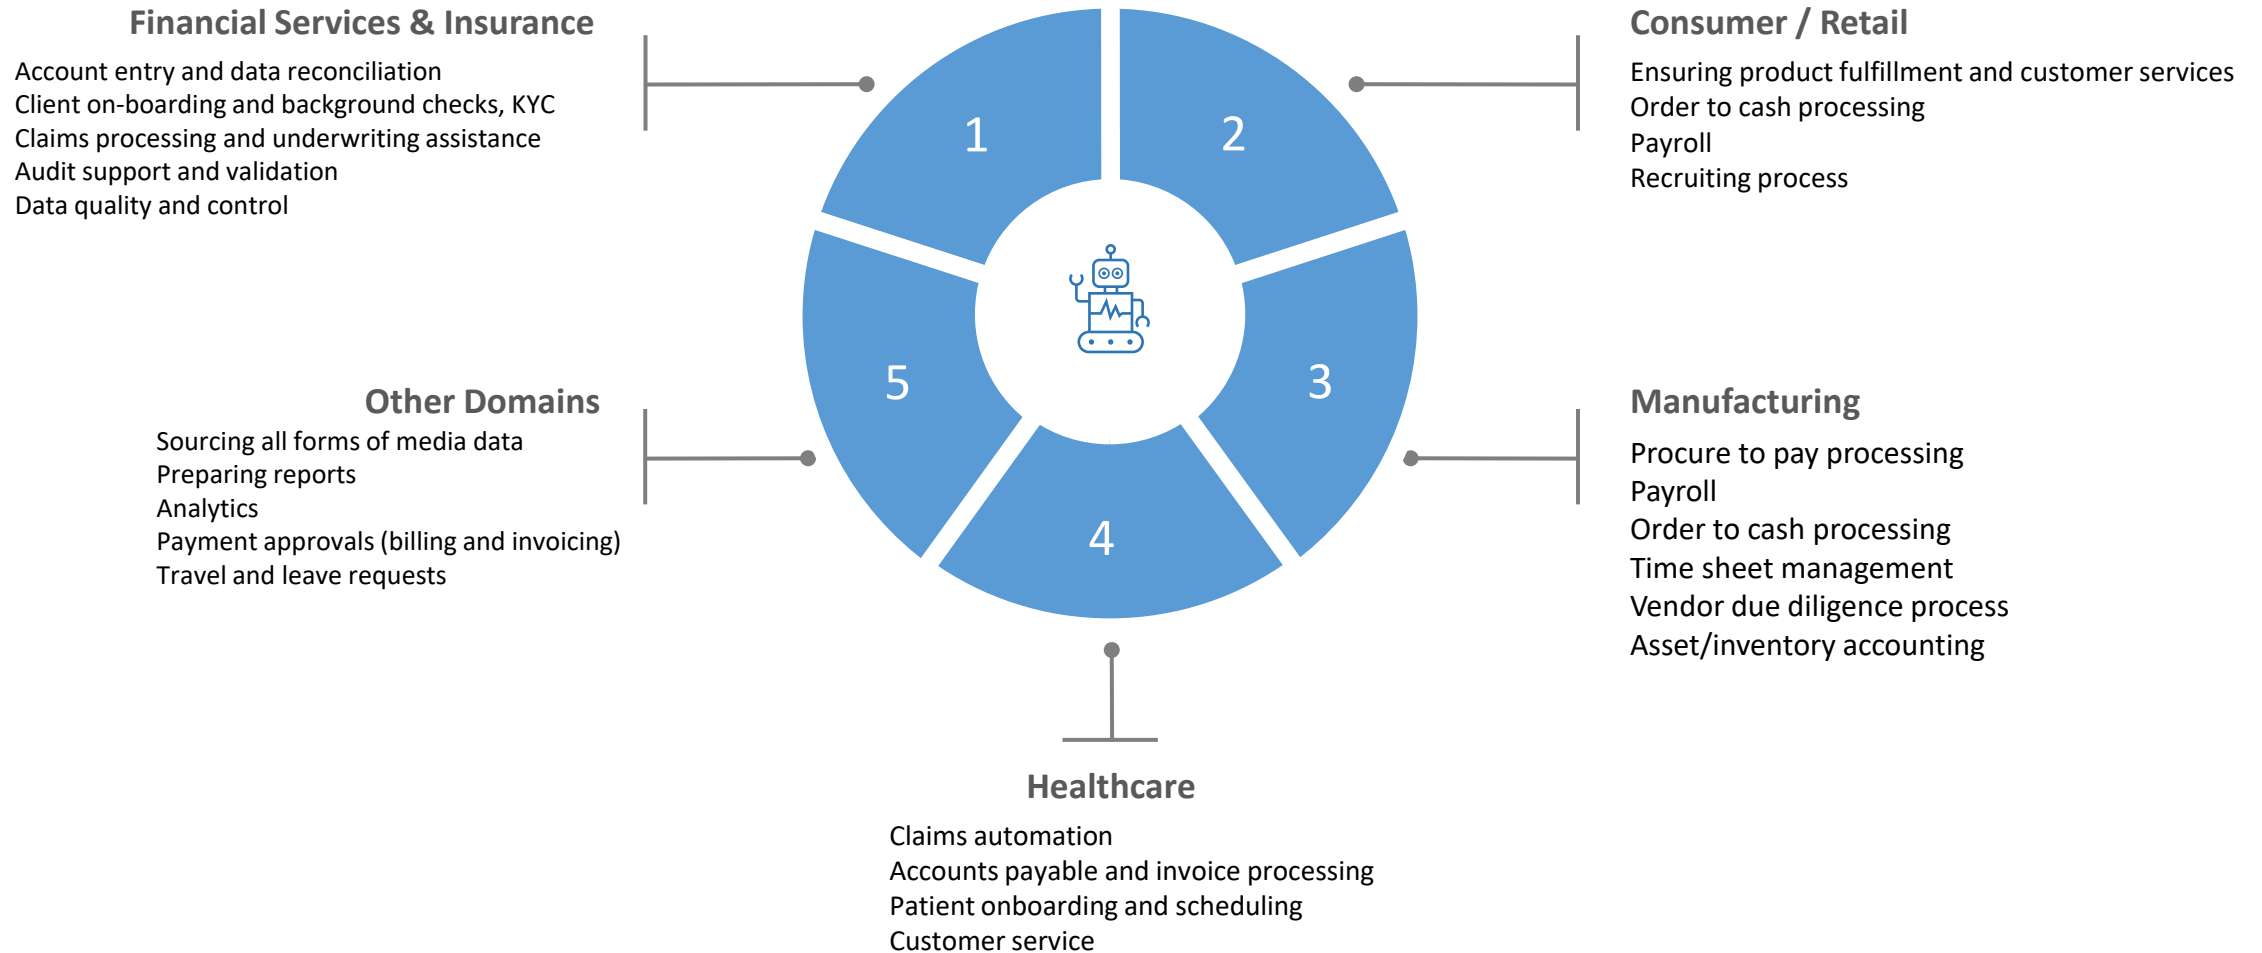

Attributes to identify automation opportunities

Strategic Objectives – Overall Automation Program Goals & Objectives also play a role in identifying the right processes

## Robotic Process Automation (RPA) – Use Cases

### Common Use Cases

## IN SUMMARY

**Bottom Line Efficiency**

**Top Line Growth**

**Customer Empowerment**

**Compliance and Regulatory needs**

### Value Proposition

- Faster
- Runs 24 / 7
- Unattended
- More secure
- Less errors
- Reallocate staff toward more high value tasks
- Better customer experience

### Tasks Automated

- Open emails / attachments
- Reads forms, emails and databases
- Makes decisions
- Log in to applications
- Performs data entry
- Fills out forms
- Performs calculations
- Collects and stores data

### Use Cases

- Batch jobs / Nightly jobs
- Account Maintenance
- Staring and comparing reports/files
- Customer information updates
- Loan application fulfillment
- Account/Card maintenance
- Loan boarding
- New employee onboarding

**24/7/52**  
ALWAYS ON

**ANY LOCATION**

**70% – 80%**  
Reporting Automatable

**48%**  
% Increase adoption in 2021
